## Sticht oder nicht

This is a classical card trick game, but with two innovative new ideas.

There are four piles of special cards. You reveal one random card of each pile. These cards will offer all players bonuses (or maluses!), e. g. for collecting cards of a given colour or the fewest tricks or similar. And these cards could decide if you play with a trump or not. Tricky: Only two of the four special cards will be chosen by some players, so in each game round two players have an important influence on the course of the game.

Another gimmick: You may use once per game round a unique +2/-2 card, giving you the possibility to change the value of a card played simultaneously. This let you beat even the highest trump card, but also avoid making a trick you don't want to gather.

Easy-to-learn rules, fast playing times.
